

## Jack Steer

---

My current passion is ensuring that the Veteran community of New Zealand receive the support and recognition they have earned through their service to our country. I see the RNZRSA and RSAs throughout New Zealand having a major role to play in this work. Along with the new National President and his team, I believe I can make a significant contribution to our Veterans welfare and recognition as well as the provision of support and guidance to the various RSAs that seek it.

I am a people-focused operational leader, experienced in providing innovative operational and strategic leadership in large organisations and high growth environments. I am a passionate leader and encourage teams and individuals to develop beyond their expectations. I build strong relationships and develop consensus among key internal and external decision makers. I am highly experienced at negotiating and facilitating for the best outcomes for organisations.

I have a proven track record of delivering large projects in complex environments. I am renowned for combining sector expertise, business acumen and my ability to connect with people at all levels of an organisation, to create strategies that achieve continuous improvement and support the operational needs of business.

I believe my work experience, training, contacts and commitment will enable me to make a significant contribution towards our Veteran community as National Vice President.
